

Enhesa Country Profiles

Enhesa's Country Profiles give a detailed narrative description of the EHS regulatory and policy systems for over 80 countries all over the world

“Enhesa has repeatedly demonstrated its high professionalism in providing EHS regulatory compliance services to GDF Suez and we particularly value its ongoing close attention to our needs”

Grégory Casale,
Environment, Health & Safety,
Management System, GDF Suez

Country Profiles are the ideal tool for getting to grips with unfamiliar regulatory systems and policies and the main compliance issues facing products and operations across the global marketplace

Answering the questions:

- Who regulates EHS issues nationally, regionally and locally?
- What are the EHS laws and regulations impacting facilities and products?
- How do the EHS laws and regulations work - not only in theory but in practice?
- When do products and facilities need to be permitted and registered?
- Where do I obtain additional information about specific regulations and laws?

Understanding the EHS landscape

- Explanation of how EHS policies and laws are adopted, implemented and enforced
- Overview of the relevant administrations and regulatory structure

Comprehensive, detailed and standardized coverage:

- A directory of the relevant permitting and enforcement authorities at national, regional and local level for EHS issues
- EHS legislative requirements and regulations summarized per subject.
- Full listings of applicable laws and regulations with title in original language and English with hyperlinks to the original text when available
- Key fact sheet of practical information on country (size, holidays, geography, currency etc)
- Standard format for every profile facilitating comparison between countries

Facility (operational and/or administrative) and/or product coverage:

- Cover both environmental and occupational health and safety issues
- Profiles can be tailored to industry sector, individual facilities, administrative offices and/or products

Complimentary partnership with Enhesa Regulatory Monitoring Service:

- Combine our Enhesa Country Profile with our forward looking Enhesa regulatory monitoring service to have an all-inclusive and always up-to-date understanding of a country's EHS regulatory requirements

What does Enhesa bring to you?

Experience

- Over 18 years in the business of helping companies manage their EHS regulatory compliance
- Consultants with in-depth knowledge and extensive expertise of regulatory environments in multiple countries – letting you know what compliance really means

Focus

- Global coverage – with experience in over 100 countries and over 40 nationalities represented by our consultants
- Ever-expanding scope
- We provide a tailored service supported by our expert staff – we are not simply publishers

Understanding

- Language, culture, popular issues and pressures at local level across the globe
- Legislative/regulatory realities – the real story of 'who does what'
- Enforcement and implementation: 'what can you really expect?'

Synergy

- Enhesa's knowledge of national and local regulatory agencies, non governmental organizations, industry and trade associations and our own experience in various industries gives you the most complete international regulatory information
- All of Enhesa's services (Monitoring, Audit Protocols, Regulatory Registers, Compliance Calendars and Country Profiles) are linked together to provide you the most complete international regulatory solution
