

Enhesa's mission: to help our clients understand and comply with worldwide EHS requirements impacting their operations and products.

How can Enhesa help you stay in compliance worldwide?

Regulatory Monitoring Service - *Stay on top of new regulatory developments*

- Monthly monitoring updates giving you advance warning of upcoming policies and regulations that will impact your business
- Covering over 100 countries worldwide. Information is available in English and local language
- Enhesa's database of global regulatory information is easily accessible via a 24/7 website and monthly email alerts. Contains over 30,000 regulatory texts
- Enhesa not only identifies and summarizes each initiative, but also analyzes how the initiatives will impact your business and guides you to appropriate responses
- Can include regular conference calls with Enhesa consultants and your staff about the most important developments for your business
- Compliance Calendar showing all implementation and compliance dates

Country Profiles - *Get to grips with national and local EHS regulatory situations*

- How are policies made, implemented and enforced?
- Who are the relevant permitting and enforcement authorities at national, regional and local level?
- What are the applicable laws and regulations in force?
- Available for over 80 countries in English and local language
- Profiles can be tailored to industrial facilities, administrative offices and/or products

EEE Service - *Stay on top of developments impacting electrical and electronic equipment*

- Focused on product regulatory obligations for the electronic and electric industry
- Covering 40 countries in Americas, Europe and Asia
- Coverage grows as new regulations are proposed, adopted and implemented
- Monthly updates include compliance calendar, access to regulatory texts
- Forum to share best practices with peers

Regulatory Registers - *Identify those laws and requirements applicable to you*

- Provides an overview and direct access to global EHS regulations
- Enables facilities to determine exactly what regulations and requirements are applicable
- Outlines key requirements
- Fulfills requirement 4.3.2 for ISO 14001 and OHSAS 18001

Audit Protocols - *Audit tools to monitor and ensure EHS compliance at your facilities*

- Protocols covering over 100 countries (can include state/provincial and regional)
- Updated annually and on demand
- Available in English and local language
- Includes Excel ScoreCard to easily and objectively assess each finding for risk, root cause and corrective action, enabling comparison of facilities, identification of trends, and quick presentation of results
- Open platform – easily integrated into any auditing software and company management system

Enhesa Update

- Monthly publication containing titles and descriptions of the latest EHS developments in some 50 countries around the world. Subscription includes access to database containing records of these developments dating back to 1998

Helpline

- Direct access to Enhesa consultants for regulatory assistance and support

What does Enhesa bring to you?

Experience

- Over 18 years in the business of helping companies manage their EHS regulatory compliance
- Consultants with in-depth knowledge and extensive expertise of regulatory environments in multiple countries – letting you know what compliance really means

Focus

- Global coverage – with experience in over 100 countries and over 40 nationalities represented by our consultants
- Ever expanding scope
- We provide a tailored service supported by our expert staff – we are not simply publishers

Understanding

- Language, culture, popular issues and pressures at local level across the globe
- Legislative/regulatory realities – the real story of ‘who does what’
- Enforcement and implementation: ‘what can you really expect?’

Synergy

- Enhesa’s knowledge of national and local regulatory agencies, non governmental organizations, industry and trade associations and our own experience in various industries gives you the most complete international regulatory information
- All of Enhesa’s services (Monitoring, Audit Protocols, Regulatory Registers, Compliance Calendars and Country Profiles) are linked together to provide you the most complete international regulatory solution
