

Enhesa

Global Permitting Strategy Services

Enhesa's Permitting Services assist companies to identify and acquire required EHS Permits in over 120 countries.

- Enhesa gives clients the Why, What, Where, When & How of Permitting
- Why are certain permits required?
- What are the necessary steps required to obtain a permit?
- Where to go to get the permits (agencies & contacts)?
- When to apply for a permit?
- How to navigate the permitting process?
- Enhesa keeps projects on track and facilities open by optimizing our client's EHS permitting processes

The logo for Enhesa, featuring the word "enhesa" in a lowercase, sans-serif font. The letters are white and are set against a solid orange circular background.

Enhesa provides the Permitting Advice, Strategy and Tools to obtain & maintain Permits in a consistent manner worldwide. Enhesa can assist you during Site Selection, Construction Phase and Start-up, Operations and Closure or Transfer.

Full Scope of Permitting Assistance – Tailored to your needs

- High Level Overview of relevant permits for existing or planned operations
- Strategic Roadmap including details for planning and implementing permitting strategy along with specifics on various permitting processes and agencies
- Third Party Review to ensure completeness of permit & timeliness of permitting process
- Verification that a facility has the appropriate permits.
- On-going Compliance with permit requirements.

Consistent, Systematic & Comparable Strategic Approach and Tools

- Easy to use tool that identifies and tracks all relevant EHS Permits
- Systematic thematic solution aligned with all Enhesa Services
- Consistent approach and tool enables comparability across multiple sites and countries
- Facilitates cost efficient corporate-wide permitting strategy.

Third Party Review – Minimizing Delays and Managing Authorities requirements

- Minimizing delays in approval due to requests for additional documentation & information
- Minimizing likelihood of erroneous or misleading information being integrating in a permit
- Minimizing Risk of unreasonable or unattainable requirements being included in a permit.

On-going Compliance

- Providing up to date information on changing permitting conditions
- Assistance with communication to authorities of operational and/or facility modifications
- Tracking of compliance with permits.

Combine your permitting strategy with your engineering schedule

- Support you to match your permitting and engineering schedules
- Assistance to prioritize your different permit needs in accordance with your project stages.

What does Enhesa bring to you?

Experience

- Over 18 years in the business of helping companies manage their EHS regulatory compliance
- Consultants with in-depth knowledge and extensive expertise of regulatory environments in multiple countries – letting you know what compliance really means

Focus

- Global coverage – with experience in over 120 countries and over 40 nationalities represented by our consultants
- Ever-expanding scope
- We provide a tailored service supported by our expert staff – we are not simply publishers

Understanding

- Language, culture, popular issues and pressures at the local level around the globe
- Legislative/regulatory realities – the real story of ‘who does what’
- Enforcement and implementation: ‘what can you really expect?’

Synergy

- Enhesa’s knowledge of national and local regulatory agencies, non governmental organizations, industry and trade associations and our own experience in various industries gives you the most complete international regulatory information
- All of Enhesa’s services (Monitoring, Audit Protocols, Regulatory Registers, Compliance Calendars and Country Profiles) are linked together to provide you the most complete international regulatory solution

“For over 10 years, Enhesa has been vitally instrumental in General Electric’s ability to achieve a world class EH&S program.”

*Bruce Adler,
General Electric*
