### 1. Service Selection:

Below are a list and a brief overview of the Enhesa services. Please review each service description and check off those of interest to obtain a quote.

<input type="checkbox"/> <b>Country Profiles</b>	<p>Country Profiles give a summary of how EHS or product issues are regulated in a country. It includes analyses of the country's authorities, regulatory system, regulations and related business impacts. Country Profiles can be tailored to a company's specific activities, operations and products. They include access to the Enhesa Regulatory Knowledgebase.</p> <p>For more information, please visit: <a href="http://enhesa.com/en/service/country_profile.aspx">http://enhesa.com/en/service/country_profile.aspx</a></p>
<input type="checkbox"/> <b>Regulatory Registers</b>	<p>A web-based tool to allow individual facilities to identify and document the EHS regulations relevant and applicable to them. Registers are kept real time to allow company's to maintain information if regulations or site activities change. . The Registers include summaries of the main requirements and access to the Enhesa Regulatory Knowledgebase. Registers can also be used for product compliance assurance.</p> <p>For more information, please visit: <a href="http://enhesa.com/en/service/regulatoryregister.aspx">http://enhesa.com/en/service/regulatoryregister.aspx</a></p>
<input type="checkbox"/> <b>Regulatory Monitoring</b>	<p>An online tool to allow managers to keep track of new, pending and future regulations that could impact the company at corporate and facility level for EHS and/or product issues. Includes detailed analysis of each development complete with tailored business impact as to what a company needs to do to ensure ongoing compliance. Regulatory Monitoring also includes access to the Enhesa Regulatory Knowledgebase.</p> <p>For more information, please visit: <a href="http://enhesa.com/en/service/monitoring.aspx">http://enhesa.com/en/service/monitoring.aspx</a></p>
<input type="checkbox"/> <b>Audit Protocol &amp; ScoreCard</b>	<p>An audit tool to verify compliance with EHS regulatory requirements. Compiled, supported, and updated by regulatory experts who provide the regulatory content for the tool at both national and state/provincial levels. Delivered in an easy-to-use Excel ScoreCard or as a datafeed into an Audit Platform. The Excel ScoreCard includes an audit results dashboard and multiple functionalities to report audit findings. Includes the Country Profile service to provide the regulatory framework and context and access to the Enhesa Regulatory Knowledgebase.</p> <p>For more information, please visit: <a href="http://enhesa.com/en/service/audit_protocol.aspx">http://enhesa.com/en/service/audit_protocol.aspx</a></p>
<input type="checkbox"/> <b>Helpline</b>	<p>A service that provides a rapid response to regulatory questions. A cost effective and simple way to get clarification and explanations for urgent, detailed and/or nuanced regulatory requirements, worldwide.</p> <p>For more information, please visit: <a href="http://enhesa.com/en/service/helpline.aspx">http://enhesa.com/en/service/helpline.aspx</a></p>
<input type="checkbox"/> <b>Product Environmental Stewardship</b>	<p>Enhesa assists companies in ensuring global compliance with product regulations from design to marketing to end-of-life. Enhesa also provides tracking and analysis of pending and future regulatory constraints on products allowing companies to gain market advantage.</p> <p>For more information, please visit: <a href="http://enhesa.com/en/service/product.aspx">http://enhesa.com/en/service/product.aspx</a></p>
