

Order form for Enhesa Audit Protocols

The best value for money from the market leader in global EHS compliance

Below you will find a list of more than 150 currently planned and available audit protocols. To order any of the protocols listed below, please complete this form and return it to us at protocols@enhesa.com or fax this request form back to us at **+1 202 747 2874**.

You can also call us to discuss options, such as tailored protocols or other special requests. You can always reach us by phone at **+32 (0)2 775 9797 (Brussels)** or **+1 202 552 1090 (Washington)**.

Further information on how Enhesa's Audit Protocols can help you to assess compliance can be viewed at http://www.ehsmonitor.com/legislation/docs/AP/Enhesa_Audit_Protocols.pdf.

- The requested Audit protocols in PDF and ScoreCards in Excel 2007 will be delivered after receipt of the signed order and payment. Please contact Enhesa if you would like to arrange an update and delivery schedule that fits your needs.
- The price below includes both a full Audit Protocol for preparation as well as a ScoreCard for assessment and reporting. It is also possible to receive a datafeed to your audit platform on request. Excel 2003 may also be requested in advance for the ScoreCard format.
- When purchasing a state/local level protocol, it is always necessary to also purchase the national level. When buying multiple state/local level protocols for the same country, national only needs to be purchased once.
- Protocols for Canada, Belgium and Australia need to be accompanied by at least one of their respective state/jurisdictions.
- If you are looking for an audit protocol which is not on this list, just let us know and we'll look into the most economical way of developing it for you.
- The price indicated below is for a generic Audit Protocol for industrial operations. Tailored content is also available on request, such as for administrative offices only or adjusted to your specific activities (oil and gas, mining, etc.).
- The offer is limited to companies who will use the Enhesa Audit Protocols for their own operations, but consultants, law firms, publishers, etc. can contact Enhesa for an offer.
