

Enhesa

International Audit Protocol Service

Enhesa gives you the tools to measure your company's compliance with EHS requirements anywhere in the world

“For over 10 years, General Electric has relied on Enhesa to produce high quality audit protocols for our global facilities. These protocols form the foundation for GE's commitment to 100% compliance worldwide”

*Bruce Adler,
General Electric
Corporate Counsel*

How do Enhesa's Audit Protocols help you to determine your global EHS compliance?

Current and Timely

- Using a protocol that is even a year old can be a disaster in today's rapidly evolving regulatory landscape. Enhesa's Audit Protocols are the most up-to-date on the market, and can be updated to fit your audit schedule

Most extensive global coverage

- Audit Protocols for over 100 countries, including state and regional requirements
- New countries/states added in response to client demand

Detailed, flexible and comprehensive

- Thematic modules allow for easy division of work between audit team
- Hyperlinks to original text of the legislation/regulations
- Auditors receive guidance to fully prepare for the audit, including narrative info on how each issue is regulated
- Includes a list of documents to be reviewed before and during the audit
- Can be tailored to a given facility or industry sector

ScoreCard

- Excel ScoreCard allows the auditor to easily and objectively rank each finding for risk, root cause, and corrective action required
- A list of all non-compliance findings can be generated as and when needed - excellent for use in day-end or close-out meetings
- Allows instant presentation of results, easy comparison between facilities or comparison of trends over time
- Can form the basis of the audit report and corrective action plan
- Included in the purchase of the Audit Protocol

Language support

- Audit Protocols available in English plus local language
- Dual-language ScoreCards allow auditors to work in whichever language they prefer, in the same document

Easy to use format – for unlimited users

- Delivered in PDF and Excel, the format can be adjusted to your needs
- Can be integrated to your auditing software or corporate management system (XML, Access, etc.)
- Enhesa Protocols can be used by anyone within the company, they are not restricted to user licenses

What does Enhesa bring to you?

Experience

- Over 20 years in the business of helping companies manage their EHS regulatory compliance
- Consultants with in-depth knowledge and extensive expertise of regulatory environments in multiple countries – letting you know what compliance really means

Focus

- Global coverage – with experience in over 150 countries and regions and over 40 nationalities represented by our consultants
- Ever-expanding scope
- We provide a tailored service supported by our expert staff – we are not simply publishers

Understanding

- Language, culture, popular issues and pressures at local level across the globe
- Legislative/regulatory realities – the real story of ‘who does what’
- Enforcement and implementation: ‘what can you really expect?’

Synergy

- Enhesa’s knowledge of national and local regulatory agencies, non governmental organizations, industry and trade associations and our own experience in various industries gives you the most complete international regulatory information
- All of Enhesa’s services (Monitoring, Audit Protocols, Regulatory Registers, Compliance Calendars and Country Profiles) are linked together to provide you the most complete international regulatory solution
